Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

CI-100 – Technical Information

CI-100

The CI-100 cash recycling system consists of a banknote recycler (CI-100B) and a coin recycler (CI-100C), offering improved security and reduced cash handling time in retail applications; during day-open, shift change and day-close operations. CI-100 offers the cashier a quick and easy solution for handling cash in the back office of a retail environment, allowing managers more time to focus on their core business. If the compact cash recycling system CI-10 is added, the CI-10 and CI-100 offer a secure closed cash management solution. In addition, the CI-100 accepts not only the interface cassette of the CI-10 but also loose notes from the manual cash drawer. This unique function provides retailers flexibility and extensibility.

- **Data interface port:** LAN
